

Overview

Multi-grip, high strength steel and stainless steel breakstem fasteners

Key features and benefits

- Multi-grip capability
- Good hole fill
- High shear and tensile strength
- Provides a large blind side bearing area against the rear sheet
- Retained stem
- Stainless steel option provides high corrosion resistance and is ideal for applications requiring elevated temperatures
- Wide choice of installation tools
- One fastener can be used to replace several standard grip fasteners
- Accommodates wide variations in material thickness
- Reduced fastener inventory and simpler stock control
- Spreads the tail bearing load/clamp on the rear sheet
- Ideal for use in thin sheet materials
- Compensates for irregular, oversized, slotted or misaligned holes
- Can stop sheet movement in non-standard holes
- Provides strong, vibration resistant joints
- No damage, electrical problems or rattling due to loose stems

Assembly applications

- Automotive
- Commercial vehicles
- Domestic appliances
- Electronics
- Electrical equipment
- General light industrial
- Heating and ventilating

Specifications

Sizes: 3.2mm to 6.4mm (1/8" to 1/4")

Materials: Steel or stainless steel

Headforms: Dome, countersunk and large flange
